

ANUJ BAJRACHARYA

MERN Stack Developer

Lalitpur, Nepal | anuj.bajracharya0312@gmail.com | 9813849744

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

MERN stack developer with hands-on experience building full-stack web applications using React, Node.js, Express, and MongoDB. Strong foundation in frontend UI development and REST API design, complemented by customer-facing experience in communication and problem-solving. Currently pursuing a B.Sc. in Computer Science and Information Technology.

WORK EXPERIENCE

Customer Service Representative — Kalash Services Pvt. Ltd, Jawalakhel, Lalitpur *Aug 30 – Nov 22*

- Handled inbound customer calls, addressing queries and routing tickets to the appropriate internal teams for resolution.
- Supported sales of internet connection packages, communicating plan options clearly to customers.
- Developed strong communication, active listening, and problem-solving skills through daily client interaction.

PROJECTS

Vael E-commerce — Personal Project

- Built a full-featured e-commerce platform with separate user-facing storefront and admin dashboard using the MERN stack.
- Implemented user authentication with secure login and signup flows, including session/token handling.
- Developed a shopping cart and checkout flow, covering item management, order summary, and order placement.
- Built product search and filtering to help users navigate the catalog by category, price, and other attributes.
- Created an admin dashboard with analytics for tracking orders, products, and store performance.
- Designed and structured REST APIs with Node.js and Express, backed by MongoDB for data storage.
